HTM-STP-300Y

Portable Printer Mains- or Battery Powered

Highlights

- Colour Touch Screen Navigation Panel
- Compact and robust housing
- Memorycard for standalone use (non PC reliant)
- Mid-centered automatic print positioning
- Bluetooth Connectivity
- Ethernet as standard for printing over network
- Available as a mains- or battery version

The new STP-300Y series is an industrial thermal transfer printer for printing labels and continuous media in the SumiTag range of products. The industry's first label printer to be fitted with a full colour touchscreen as standard makes it easy to call up existing labels, add data and print, all without being connected to a PC - a true stand-alone printer. An additional Key feature of 300Y printer is the wearing parts, such as print rollers and print heads, can be replaced in a matter of seconds usually without the need for any tools. All labels are centered automatically in the printer. The STP-300Y thermal printer is available in 200 or 300 dpi resolution.

The STP-300 printer range works best with our market-leading SumiLabel software, which has been specially developed for labeling cables, devices and systems.

Technical characteristics

Property:

Print Resolution:	300 dpi
